Contemporary Drug Problems
Editor: David Moore  National Drug Research Institute, Curtin University, Australia
Volume 43 | 0091-4509
http://cdx.sagepub.com

Contemporary Drug Problems is a scholarly journal that publishes peer-reviewed social science research on alcohol and other psychoactive drugs, licit and illicit. The journal’s orientation is multidisciplinary and international; it serves a burgeoning constituency of social researchers as well as policy makers and practitioners working in health, welfare, social services, public policy, criminal justice and law enforcement.

It is open to any research paper that contributes to social, cultural, historical or epidemiological knowledge and theory concerning drug use and related problems, yet also recognizes that innovative or challenging research can sometimes struggle to find a suitable outlet. The journal therefore particularly welcomes original studies for which publication options are limited, including historical research, qualitative studies, and policy and legal analyses.

SAGE continues to experience consistent growth in its coverage in the reports, with over 500 journals now ranked in the JCR, achieving a 31% increase over the past five years. In this year’s reports, over 100 SAGE journals have received a top 10 category rank, with 23 journals receiving their first Impact Factor (IF). 220 titles are now placed in the top 30% of the JCR, and 52% of SAGE journals are ranked within the top half of their subject category.

"Once again we are pleased to see strong performances of our journal portfolio across both the SCI and SSCI categories. While SAGE has long recognized the need to consider other measures of journal quality to create a balanced picture, it is pleasing to see improved JCR Impact Factors across so many of our journals reflecting well on editors, article contributors and the highly talented editorial teams that support them.”

Ziyad Marar Global Publishing Director, SAGE
