RESEARCHING SOCIAL LIFE

Third Edition

Nigel Gilbert *University of Surrey*

The **Third Edition** of Nigel Gilbert's hugely successful **Researching Social Life** covers the whole range of methods from quantitative to qualitative in a down-to-earth and unthreatening manner.

Nigel Gilbert's text offers the best coverage of the full scope of research methods of any of the leading textbooks in the field, making this an essential text for any student starting a research methods course or doing a research project.

This thoroughly revised text is driven by the expertise of a writing team comprised of internationally-renowned experts in the field.

Useful features, such as worked examples, case studies, discussion questions, project ideas and checklists are included throughout the book to help those new to research to engage with the material.

New to the **Third Edition** are chapters on:

- Theory and Method
- Grounded Theory
- Mixed Methods
- Action Research
- Virtual Methods
- Narrative Analysis
- Searching and Reviewing the Literature
- Refining the Question

Numerous features have been added to the **Third Edition** to promote student learning and engagement:

At the start of each chapter there's a handy table of contents and a list of learning objectives to signal what's coming up

The introduction provides you with the overall rationale for each chapter

The summary section in each chapter reviews the main concepts, while the discussion questions provide extra stimulus for practical and reflective learning on key issues and concepts

Case studies are designed to reinforce reflective learning and the reinforcement of key concepts

A handy list of additional resources to explain and expand on chapter contents is backed up by an indispensable glossary to cover concepts raised in the book
